The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following port s, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Cheau	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson. Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Conrt of Pennsylvania.

PHILADELPHIA, April 28, 1866

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eigth, below Coates Street.

SPEECH OF HON. P. GRAY MEEK.

In the House of Representatives of Pennsylvania, on the ratification of what is termed the Fifteenth Amendment to the Federal Constitution, giving Negroes, Chinamen and Indians the right to vote.

Mr. MEEK. Mr. Speaker, it is scarcely to be expected that after so many able and eloquent arguments, made by my Democratic colleagues against the passage of this resolution, that I can add anything that will either convince, instruct or interest the gentlemen who are to vote upon this question. But, Mr. Speaker, as I have the honor to represent an honest, intelligent and patriotic white constituency, I would be false not only to them but to my State, my race and to myself, were I to permit this great, this most appalling iniquity to be consummated without raising my voice to protest against it. This resolution to ratify what is termed an amendment to the Federal Constitution, involves two questions, both of which are great fundamental principles in our system of government—questions which are the very corner stones upon which our Republic was erected—questions upon the termination of which not only rests the perpetuity of our Commonwealth, but the future of our race and the safety of society. These questions are the

RIGHTS OF THE STATES AND THE STATUS OF THE RACES.

To treat these questions as they should be treated would certainly take a much older, abler and better informed person than myself; but, sir, I have too much love for my State, too much pride for our proud old Commonwealth, too much regard for its honor, welfare, power and worth to sit silently by and see her rights trampled upon, her powers usurped, her privileges abriged, aye, sir, her very existence blotted out by usurpation of the General Government in the hands of Puritan fanatics and rum soaked Radicals, as wrong as it is debasing, as outrageous as it is infamous, and as revolutionary as it is repulsive.

It is true, as has been asserted here by members advocating this measure, that Article five of the Federal Coustitution provides for the Amendment of that instrument, in precisely the manner that this so called amendment is proposed to be made; but it is equally true that that same constitution limits the power of amendment to such matters only as come within the jurisdiction of the General Government. Two of these limitations were expressly made in the same article which provided a mode of amendment, and others result from the general character of the Constitution, and particular provisions within it.

Among the general principles underlying our Federal Constitution, which operates as a limitation upon the right of amendment, is the fact that ours is a republican form of Government. No change in a Constitution, or any addition to it, which would transform our Government into a monarchy would be a legitimate amendment. Such a change, instead of being an amendment would be rank revoluton; and even if the revolutionists were able to pass it through the prescribed forms and put it into practicle effect, its validity, if it had any, would not result from the legitimate right of amending the Constitution, but upon the despotic priciple that might makes right.

Another general principle which operates as a restraint upon the right of amendment is explicitly expressed in article ten of the amendments, which declares: "The powers not delegated to the United States by the Constitution nor prohibited by it to the States are reserved to the States respectively or to the people." And Section eight of that instrument sets forth plainly what powers were delegated to the law making power of the United States, as well as those prohibited by the States, and nowhere and at no place, or under no construction, can there be found authority for this attempted usurpation of the reserved rights of the States.—The question of suffrage—the elective franchise—to which this proposed amendment relates, is precisely one of those questions which have been "reserved to the States respectively or to the people." By no word or sylable of the constitution has the Federal Government been invested with any power or authority in regard to this subject. The two houses of Congress, even by a unanimous vote, have no more constitutional right or power to propose such an amendment—no, not amendment but revolution—as that which we have under consideration, than the Parliament of Great Britain, the Corps Legislatiff of France or the Cortes of Spain. It is a subject not within its jurisdiction, and the people of the States whose rights are to be trampled upon and crushed out by this most infamous usurpation, would be justifiable in revolt—will be cowards if they do not resist.

Why, sir, if three-fourths of the States, through the General Government, have the power to strike the word "white" from the Constitution of Pennsylvania, as this pretended amendment proposes, has it not the right to strike out any word, sentence or section within it? If it can strike out the word "white," can it not strike out the very first section of the first article, which creates this body, now ready to admit by it votes that this power belongs to the General Government? I ask you, in all candor, where is the assurance that the same power that now seeks to annul one of the provisions of the State Constitution, will not, before another year, attempt to annul all? If Congress, endorsed by the Legislatures of three-fourths of the States, can say who shall vote within our Commonwealth, can it not also say who shall be our judges and our jurymen, our office-holders and our lawmakers, as well as what rights we shall enjoy and what religious faith we shall profess? If Pennsylvania, once proud, peerless Pennsylvania, has not the power to fix the qualifications of electors within her own broad borders, pray tell me what power she does possess?

The fundamental principle of our Government is, that governments "derive just powers from the consent of the governed," or in other words, that all governmental authority is inherent originally in the people themselves. In framing their governments they delegate certain powers to those governments and give them a certain general or limited jurisdiction over certain governmental questions. The powers of the government are limited by the instrument by which those powers have been delegated. Hence neither the State or Federal Government are absolute over all questions. The powers of each have been delegated by the people—the sovereign source of all political power; and in the written Constitutions is expressly declared what powers are delegated, while the omnipotent voice of the people, like the voice of the people, like the voice of the Almighty addressed to the sea, has said, "Thus far mayest thou go and no farther; and here shall thy proud waves be staid."

We, Mr. Speaker, the immediate representatives of the people of Pennsylvania, have no power over this subject. Our own State constitution defines the qualifications of voters in this Commonwealth, and this Legislature has no power, either directly or indirectly, to change its provisions on the subject so as to be binding upon our own people, much less have we the power to bind the people of other States by any unauthorized action of ours. To amend our State Constitution requires that two successive Legislatures propose the amendment, and then that a majority of the qualified voters of the State ratify the amendment at the next general election. We have taken an oath to support that Constitution, and yet a majority of this House, with that oath still fresh upon their lips, are ready to violate it, by voting to allow an unauthorized power to strike from it the most important provision it contains. This question of suffrage is a question which even the States as States in their governmental capacity have no jurisdiction over. It is fixed and regulated by the Constitutions of the several States, and no power save the power that made them—the people—can alter, change or amend. Why, Mr. Speaker, this act of usurpation on the part of the General Government and the State Legislatures, to fix the qualifications of voters in the several States, is assuming authority over subjects that even the crowned heads of Europe fear to exercise. It is but a short time since the question of extending the elective franchise to persons not before exercising it in England was agitated there, and the Queen, fearing to exercise a power over her subjects that radicalism is assuming to-day in this Government, prorogeud Parliament and sent the question to the people for their decision. Should the people of the several States of this Government have less power in changing a fundamental principle of the organic law than the subjects of England? Should Congress and the State Legislatures of the American Republic assume authority that the monarchies of Europe fear to assert? And yet it is being done, done now, and a party claiming to be republican in principle is the party committing this outrage and usurpation.

But, Mr. Speaker, power is always aggressive and grasping, and its history in our government is not an exception to the general rule. We have been making, for the past ten years, rapid strides towards centralization, and every step in that direction has removed us so much farther from the republican freedom of our ancestors, and so much nearer to the despotism of European monarchies. The liberties of the masses of the people are becoming less secure just as they allow the grasping power of the Federal Government to wrest from them and lodge within itself, powers that have heretofore been exercised only by them.—How long at the rate we are now progressing towards a centralized despotism, will it be until the same power that now seeks to mutilate our State Constitution, will blot it out entirely? How long, sir, until the authority that now seeks to say who shall vote within our Commonwealth, will say also who shall fill the gubernatorial chair, if we are left one? How long sir, until our State Government is blotted out, and the people who are now sovereign will be subjects? I venture the prediction, Mr. Speaker, that neither you or I will go down to the grave with age before these things come to pass, unless a check is put to these usurpations of powers not delegated to the General Government!

This so called "amendment" has been proposed by Congress. It may be ratified by the requisite number of States, and it may then be enforced upon the several States, by the power of the General Government. What then? Is it legally valid as an amendment? No. Is it sanctioned by the people? Have they given their consent to it? No. A few hundred men who happen to be members of Congress and the State Legislatures, and who were elected to these offices without reference to such a measure as this, will have triumphed over the will of the Amreican people. What then becomes of the theory of our Government, that "governments derive their just powers from the consent of the governed?" It is cast to the moles and the bats. Our officers are no longer servants of the people but their masters—the people are no longer sovereign but slaves.

If it is true, and it certainly is, as was alleged by the party now advocating this monstrous outrage, no longer ago than last fall in its platform of principles, that the question of suffrage in all the loyal States properly belongs to the people of those States," in the name of all that is good and great, why is it not left for the people to decide? Why is it not left where you said, not six months ago, it "properly belongs?" There is no necessity for the mad haste with which this is attempted to be fastened upon us. There is no reason why it should not be left to the voice and vote of people of Pennsylvania to decide.

But, Mr. Speaker, turning to the other question involved in this discussion—the question of the status of the races, even were the right to enfranchise the negro as proposed by this measure undeniable, how many, very many, weighty, very weighty reasons there are why it should not be done. The only arguments that have been advanced here or elsewhere by the advocates of negro voting, appear to be based upon the great fallacy that the negro is only a white man with a black skin—that he possesses the same intellectual and moral faculties as the white race, and may, therefore, be incorporated with the social and civil elements of our society as an equal partner in the government of our country. On no other ground would any man of ordinary intelligence claim the equality of suffrage for the negro. On no other grounds could it be claimed without a manifest design of demoralizing and debauching our own civilization. On no other ground can they base any arguments in favor of this black measure. The "loyalty" of the blacks will not do. The people understand that too well. "Loyalty" has covered too many infamous crimes to make it a cloak to cover more. The masses can see through it—can understand it; they detest it, they spurn it. It was the watchword of the tories of the Revolution. It was the watchword of the thieves, Puritan hypocrites, Constitution defiers, law breakers, treasury robbers, divine bullies, sanctified murderers, spies, pimps, cutthroats, and the whole horde of unprincipled wretches, political vagabonds and prison-deserving villains, who reaped riches out of the blood of the people, and ghoul-like gloated over the misery of the country during the late unholy crusade for plunder and power. No, sir, "loyalty" will do no longer. There must be some other reason for the enfranchisement of the negro population, and members upon the other side can only base their arguments upon the assumption of the moral and intellectual equality of the white and negro races. But which of them have attempted to prove the premises on which their conclusions alone can rest? Who among their eminent leaders dare attempt it? Suppose, sir, it should be proven that the negro is no more the equal and brother of the white man than the ass is the equal and brother of the horse, than the buzzard is the equal and brother of the eagle, what then becomes of all this ear splitting rhetoric about "the equality and brotherhood" of negroes and white men? It is as baseless as the rich man's dreams. An attempt to establish equality upon foundations where Almighty God has fixed eternal inequality is an undertaking so profane and so God-defying that we might think it would stagger the fanatics and revolutionists of this negro suffrage party. But it does not, sir. They have got beyond that point, and the decrees and works of God himself must be swept by the board if they stand between it and places of power and profit.

The eminent Dr. Caldwell, in his work entitled the "Unity of the Races," points out over a hundred anatomical and physical differences between the negro and the white man—differences which as distinctly prove the negro to be a different being from the white man as the ass is proved to be a different creature from the horse. Currier declares "that the anatomy of the negro evidently approximates the monkey tribes." Prof. Agassiz asserts that "the chimpanzee and gorilla do not differ more from the orang than the Maylay or white man differ from the negro." Prof. Wyman, of Cambridge college, Massachusetts, says, "It cannot be denied, however wide the separation, that the negro and orang do afford the points where man and the brute, where the totality of their organization is considered, most nearly approach each other." But why, sir, multiply evidence upon this point?—It is a matter no longer in dispute. And, sirs, in the properties of the brain and heart the negro is as far behind the white man as he is in his physical peculiarities. History proves that his mental and moral depravity is as old and as unchangeable as his physical type. You can no more elevate the mind of the black race than you can change the color of its skin. It was faithfully painted upon the monumental walls of Egypt five thousand years ago, precisely as we know it to exist to-day, and was there described as the "barbarian." From that day down to our own debased times no people ever looked upon him other than as an inferior being, created by an allwise God to be ruled rather than rule.

Eminent writers estimate that not less than five hundred millions of whites have lived and died in Africa since the beginning of the historic period—church records show that millions upon millions of dollars have been expended annually, by missionaries, to civilize and christianize these black barbarians, and yet what has it all amounted to? Where is the tribe that has been benefited? Not to be found, sir. Where is the permanent good that has resulted from it? Let the boiled bones of missionaries, who have returned, after a short visit to their homes in christianized countries, to their missions among these barbarians only to be cooked and eaten, answer. And more, sir, while it is impossible for these advocates of negro equality, to point to a solitary case in which the negro has adopted our civilization, so, too, is it impossible for them to show a single instance on the face of the globe, of his having retained an enforced civilization, longer than held as the slave or subject of some superior race. If there is a spot in any country or climate, where the free negro has not relapsed towards barbarism, pray, sir, where is it? Do you point to Jamaica? The snake worship and idolatry and the Fetish superstition of this degraded race there, is simply proof of what I assert. Do you point to Hayti, let the debauched and demoralized condition of the negro there, with his witch fearing and Obi worship, answer, And, sir, come nearer home. Look upon our own soil, within the limits of our own country, under the enlightening and civilizing effects of military governments, Freedman's Bureau, purified puritan preachers, and Massachusetts school mams; and see the negroes of the South rapidly relapsing into the barbarism and heathenish practices of their African ancestors--snake-worship—idolatry—child eating and witch craft, and tell me how long it will be, going back at the rate they have, since abolitionism gave them freedom and suffrage, until they will be worthy followers of the skull scraping king of Dahomey or the devil worshiping, man eating denizens of the Fans?

There is not, Mr. Speaker, an instance on record where negroes have had a voice in the affairs of government in any country, at any time or under any circumstances, were that government has not gone to rune. It was the recognition of the equality of the races, the enfranchisement of these black proteges of abolitionism, that brought ruin to Mexico—that devastated and destroyed San Domingo—that caused the fall of the Republic of Central America, and brought destruction to the South American States. There sir, are witnessed the result of negro equality in that mass of civil and social degredation, which is so rank and foul that humanity stops the nose at it,

Are we to follow in their wake?—Are we to go down to death and destruction, sink into that seething, sickening pool of mongrelism, simply to secure power and plunder for the negro suffrage party! It seems so. It looks so. I fear it is so. Congress has cracked its whip and the asses who draw its loads have started at the snap, and are now dragging us down, down, down.

There are men upon this floor who know and feel that this attempted usurpation is wrong, outrageous, and debasing, yet who are too cowardly to vote against it, because, Congress and king caucus, has ordered otherwise.—Shame upon such freemen! A thousand shames upon such poltroonery!

In conclusion, Mr. Speaker, let me ask of the gentlemen who intend voting for this revolting measure, why it must be forced upon the people? Is it because the negro is your equal in intelligence? You do not admit him to be such. Is it because he carried a musket in your armies? Did not your own sons under the age of twenty one, and who are not allowed to vote, do the same? Is it because he is taxed to maintain the government? Are not women and minors and foreigners taxed also? Is it because you favor "manhood suffrage?" Why then prevent the intelligent white foreigner from voting for five years? Is it because the white race is unfit or unable to govern itself? Where is the government that has been benefited by negroes having a voice in its affairs? Is it because you believe in "universal suffrage?" Why then give the ballot to the ignorant negro, the dirt-eating Chinamen and the depraved digger Indian, as you are now seeking to do, and withhold it from your own sons, your wives, daughters and sisters? Sirs, it is for none of these reasons, It is not because justice demands, or philanthropy dictates it, but because a dire party necessity requires it. It is to prolong the reign of Radicalism; to keep your thieves and usurpers in power, and your villains out of the penitentiary. It is to place voting machines in the hands of capital, to override and vote down the interests of labor, and to degrade the toiling millions of this country to the condition of the mongrelized inhabitants of Mexico.

But thank God the Democracy of New Jersey, Maryland, Delaware, Kentucky, Ohio, Indiana and Georgia, aided by down trodden Virginia, despotism cursed Mississippi, and outraged Texas, will stand like a wall of fire between you and the consummation of your most infamous designs, until the people—the white people—the soverign people of Pennsylvania, in their majesty and power, choose at the ballot box, men who will fill your places in this hall next winter, and vote to rescind the resolution of ratification you are about to pass. From this moment we start the cry of Repeal! It will ring through every valley, through every village, and over every hill-top in this Broad Commonwealth, and he who will not pledge himself to vote to repeal this most debasing resolution, will not occupy a seat upon this floor during the next session of our Legislature.

J. W. DICKERSON,
Ch'n Dem. Co. Com.

RUSSELL, BARNDOLLAR and CLINE represented Somerset and Bedford in the Convention of 1839, and voted the word WHITE into the Constitution of Pennsylvania. They submitted their work to the people and the people sustained them. Now STUTZMAN, LONGENECKER and WELLER vote the word WHITE out of the Constitution and refuse to submit their work to the people. Is there a man in Bedford county with brass enough in his face to say that Russell, Barndollar and Cline were wrong and that Stutzman, Longenecker and Weller are right?

A Loss of over 6,000 radical votes in Connecticut and Rhode Island, since last fall, is claimed by the *Inquirer* as a victory for its party. As Pennsylvania polls six times as many votes as these two States together, where would a proportionate loss in the old Keystone leave the radicals? Six times 6,000 are 36,000. Can you stand that next fall, Mr. *Inquirer?*

The radical papers make a practice of croaking faintly about the enormities of the legislature, just after that body adjourns, but when the time for nominations arrives and the election draws near, a Sabbath hush prevails among them on that subject, and they generally support for election the very men they complain of, or others equally bad. Now, this is child's play; nay, worse, it is cowardice and fraud. We ask the public to note how many radical journals will keep up the war against a repetition of the iniquities of the last legislature.

The radical editors who sneeze when Grant takes snuff, pretend to be entirely satisfied with the appointment of Longstreet, Crow, Martin and other ex-Confederates, to lucrative offices under the new administration. These editors pretty generally desire to be made fellow office-holders with those "red-handed rebels," and therefore, the treason of Longstreet, Crow and Martin does not look so ugly in their eyes as it once did.

The *Inquirer* still glorifies over the Snap Judgment of the legislature by which the people of Pennsylvania are to be deprived forever of the right to control the question of suffrage. We are not a whit astonished. The *Inquirer* is bound to go to H——ayti with the radical leaders.

REPEAL is the word! Democrats and Republicans who haven't the Congressional collar around their necks, will rally under the banner of REPEAL and wipe the disgrace of the XVth Amendment surrender from the record of Pennsylvania.

Strawberries sold at $10 a quart in New York, last week.

THE FIFTEENTH AMENDMENT SURRENDER.

There is more in the proposed XVth Amendment than the mere question of the extension of suffrage. It is not what it *confers* upon certain races, but what it *takes from* the people of the States, that constitutes its most dangerous feature. We doubt not that if the more intelligent Africans knew and understood what the people are called upon, by this XVth Amendment, *to give up*, they would not accept the right of suffrage at so great a sacrifice of popular rights. The truth is that the purpose of the radical leaders, in striving to force this Amendment through the State legislatures, is to strip the elective franchise of all that makes it valuable, and they sugar-coat that purpose by extending the franchise to races which have not hitherto enjoyed it.

How is this? asks one. Are you a voter, or do you expect to be one, and yet do not know the nature of this Amendment? Why, it proposes to confer upon Congress the power to pass laws regulating the election franchise, in the States *and to take away from the people forever the right to regulate and control the suffrage question for themselves.* Under the operation of this Amendment Congress will possess the power to enact such laws regulating elections in the States, as will enable its members *to re-elect themselves as often as they choose to be candidates.* This divests the ballot of its present character of freedom and make it the merest agent of those who are in possession of the government. Not even the African cares to possess the privilege to vote, if he cannot exercise that privilege as a freeman. It should be understood by white and black that the franchise which the XVth Amendment proposes to *leave* to the people, is not the elective franchise as it now exists, *subject only to the control of the people, but only the right to vote as Congress may hereafter dictate.* There is "universal suffrage" in France, but the votes are cast according to the pleasure of Napoleon III. There is to be "universal suffrage" in the United States, but the voting is to be done according to the imperial pleasure of Congress.

We know that radical editors care nothing about this vital question.—They are the faithful henchmen of their masters in Congress. They wear the collar of the conspirators in the federal capital. When Congressmen take snuff, these radical editors sneeze, and when Butler and Sumner and Wade announce that white is black and black white, these slavish scribblers are ready to swear upon a stack of Bibles, that only Butler, Sumner and Wade tell the truth and all the rest of mankind are "copperhead. liars."—Hence we desire it to be distinctly understood that this article is not intended as a reply to any thing that may have been said upon the subject of the XVth Amendment, by any radical editor, but rather that it is addressed to decent and intelligent Africans who are not yet the slaves of party.

It will not take Edwards Pierrepont very long in the office of United States District Attorney in New York to get his twenty thousand dollars back which he subscribed for Grant's election.

Its varied departments furnish exactly what every lady needs throughout the country, and its immense circulation and great success shows that they know it. PHILADELPHIA.

[Correspondence of the Bedford Gazette.]

PHIL'A., April 15, 1869.

It will repay your time richly to go through White's Dental Depot. The building alone is a marvel of marble, costliness and extent. The first floor is occupied by Baily as a Jewelry store, said to be the finest on this continent, The first object that dazzles your eyes is a lamp of silver from the Colorada mines worth upwards of $10,000. Some men would squeeze that!! And what a pocket full of rock! But we won't go through: it would take us all day to do that. At another time we will when the gas is on in full head, and you will see a place sparkling with gold, diamonds and silver as will beat the Arabian Nights. Up stairs we go; and you are in a Dental Depot which fills orders from all parts of the world. Everything is of the first order, and in quantity, quality and variety cannot be surpased. The show cases are peculiar, the furniture elegant and the stock, which is all manufactured there, complete in every particular.

Corrugated Iron Ceiling.

The improvement of the age will have a tendency to do away with Fire Insurance Companies, after awhile. We will soon be able to build salamander structures proof against the ravage of fire, and so far as regards the safety of business houses be able to say, Good by, insurance policies. The invention of the corrogated iron ceiling by Mr. Jos. Gilbert of this city is another advance in that direction. We examined a specimen the other day in the office of McArthur, architect, and from the fact that it is used in the new Saving Fund on Walnut, and the new Chicago Tribune building, we predict a great desideratum perfectly met. The committee on service and art for the Franklin Institute favorably recommend it, and the scientific journals all over Europe regard it as good and insusceptible of further improvement. In a few years this city will compete with Paris in the number of fire proof structures and thereby save property and human life.

The New Masonic Temple.

This great and magnificent temple is to be on Broad. We noticed huge blocks of stone there, and vigorous movements toward its erection. Masonry is at the foundation—Masonry will carry it up. There is plenty of work. The stone are being polished and beautified, and will rise up into symbolic beauty and harmony. Out of the unshapen mass of stones and earth, sphynyx-like will emerge an eternal form of unity, cemented by love, fashioned on the level, pillared and plumb and squared up to the top, step by step until she shall reach the sublime degree of perfection. The workmen in their aprons are laying the foundations deep and broad, so that this temple shall stand, in her great and noble principles in centuries to come as in centuries gone by, firm against the cant of hypocrites, the fierce assault of cowans and the slam of the gates of Hell.

Cuba.

Somebody says the times change and we change with them. And so it appears. Congress has passed articles favorable to the belligerent right of the rebels in Cuba. A meeting has been held here according them sympathy. O Tempora! O Mores! Now I don't know anything about these things, but I was just beginning to believe from all I had read and heard and seen in the last six years, that it was disloyal to "*sympathize with rebels.*"—And you see when Congress and these men who were going to hang a lot of fellows for sympathy for the Southern rebels, and knock England into a nine cocked hat for recognizing them as belligerants, now turn round and throw up their hats in the air, and pass resolutions and carry on high generally and hurrah for the rebels in Cuba, I get very much *obfuscated*—I don't understand the question in such a dark light. Can you tell me, (*sub rosa*) Mr. Editor, what the difference is when *your ox gets gored by somebody else's ox?* Well, we say, ox or no ox, if we don't understaud the question, here is success to the "rebels" against despotism and wrong in any form, and God speed, in her noble struggle for independence, the Gem of the Antilles. If we get into any trouble by this language we wish it to be understood that we mean the Cuban *patriots.*

Fairmount Water Works.

Is undergoing thorough repairs. The new Turbine wheels are working satisfactorily, and the grounds donning spring attire. Ladies and little ones, on pleasant days are seen in large numbers running over the ground, and soon we hope with lunch baskets and a juvenile bevy to spend a whole day in its pleasant retreats. But April is too capracious for such indolent calculations. So far we have no trouble to keep cool.

Yours, LINDEN.

A Queer Suit and Queerer Verdict.—The Charlestown "Spirit of Jefferson" mentions an occurrence of recent date, growing out of the memorable capture of Major General Kelly, in his bed in this city, by a detatchment of McNeill's men, in February, 1865. General Kelly, it seems, lost his horse at the time of the capture, which fell in the hands of the confederate General Rosser. The animal was wounded, and after the war, was restored by General Rosser to General Kelly, upon the request of the latter. Among the party who captured General Kelly in bed was Mr. John S Arnold, now residing in Mineral county, West Virginia, and being a man of means, General Kelly brought suit against him in that county and recovered $350 damages for the injuries received by the horse. The "Spirit of Jefferson" says the only witness in the case was General B. F. Kelly himself, who swore that he saw Mr. Arnold riding the horse the day after the capture. Mr. Arnold was made to pay pretty dearly for one day's ride on General Kelly's steed, but as the horse was regularly captured in war, reasonable people will consider both the suit and verdict outside the pale of reason.—*Cumberland Paper.*

Ed. Scull, editor of the Somerset *Herald & Whig*, has been appointed Assessor of Internal Revenue for this congressional district. There is in full for all demands for the dirty work he has been doing to belittle his species and disgrace his race. The laborer is worthy of his hire.

Hon. A. L. Russell, formerly of this place, and Adjutant General during Curtin's administration, has been appointed Minister to Equador. Mr. Russell is a gentleman and a scholar and is well qualified to fill any important mission in the gift of the President. We congratulate his friends on this appreciation of his worth.

Yielding—the old locusts on Juliana street. These old landmarks that have withstood the storms of many years, and whose beautiful foliage have furnished refreshing shade to many a panting creature are compelled to yield to the decree of the powers that be.—"Woodman, spare that tree" is not heeded.

DESTRCTIVE FIRE.—We learn from the Somerset *Democrat*, that on last Wednesday a destructive fire occurred in Quemahoning towship. The new dwelling house of Joseph Zimmerman, cabinet shop and outbuildings, together with all their contents were consumed. Scarcely anything was saved, not even clothing, books, money and valuable papers. Loss about $4,000, partially covered by insurance.

PLANT TREES.—At this early day, though not too early, we call the attention of our fellow citizens to the necessity of planting fruit trees, vines, ornamental trees, evergreens and shrubbery, the present spring. Too many neglect this very important matter.—Many regret this neglect. Now, let all make amends for it. Don't forget it. There is nothing that any one plants, which grows, but what pays well, in time, some way or other. Nothing adds more to the appearance of a town, or to the public comfort of its inhabitents, than fine shade trees along the front walls. The person who plants them does a public benefit, and derives no more personal comfort and advantage from them, than every other one who cools under their refreshing shades. Those who have not yet planted shade trees should delay no longer.

A CARD.—Since I became a candidate for the nomination for Sheriff, some evil disposed persons have circulated a report that I supported John Cessna, for Congress, last fall, and that he had secured me the appointment to a lucrative office as a reward for such support. With those who know me, no denial is necessary, and those unacquainted with me, could easily satisfy themselves of the falseness of the charge by referring to the vote of my own township, where *Mr. Cessna did not get a single Democratic vote! The charge is false and utterly without foundation.* The appointment referred to was that of surveyor of distilleries, the emoluments of which amounted to about *forty or fifty dollars*, and was made by William McSherry, Esq., Democratic Assessor of Internal Revenue, for this district, without the knowledge or assistance of Mr. Cessna, or any one else, without any solicitation from me or my friends, and really against my wishes, as Mr. Hughes and other distillers, who urged me to accept, can testify. The annexed statement of Mr. McSherry himself, proves the truth of what I have here said.

WILLIAM KEYSER.

LITTLESTOWN, March 18th, 1869.

I do hereby certify that on the 22nd of January, A. D., 1869, I recommended Wm. Keyser, Esq., of Buena Vista, Bedford co., Penn'a., to the Commissioner of Internal Revenue as Surveyor of Distilleries for Bedford and Somerset counties, and that on the 29th of said month, he was appointed as such without the influence of any other person whatever. WM. McSHERRY.

THE NEW GAZETTE OFFICE.—Our new office is pleasantly situated on the corner of Juliana street and Public Square, where we will be happy to see our friends at all times, and "show them around." Next week is the regular term of Court, and as a great many people will be in town during its sessions, we invite our patrons specially to come and see us then. If any who owe us for subscription, or otherwise, should think of paying us, they can rest assured that we will not be offended. We got over that some time ago. We need money badly and hope our friends will be able to "see it."

FATAL ACCIDENT.—A lad named Hughes, employed as a driver at Eckhart mines, came to a sudden and terrible death the latter part of last week. While riding his horse outside of the mine, the animal, from some cause, took fright, and the boy becoming entangled in the gears, was dragged and trampled to death. Our informant states that his remains were literally an indistinguishable mass. The father of the youth came to a violent death in one of the mines in that neighborhood some years ago.—*Cumberland Alleghenian.*

THE ELEPHANT.—The elephant which passed through our town last week, was landed in New York, in February 1868, and traveled during last season in the west with Yankee Robison. He is now on his way to join Brien's Managerie and Circus at Philadelphia. His name is Roscius (not Romeo as the *Inquirer* has it.) He weighs about 9,000 pounds and is of a tolerably kind disposition. Since the death of Hannibal, whose huge remains rest in the valley of Cumberland, this county, he is the largest elephant in America.

The language of nature and experience demonstrates that whoever would enjoy the pleasure of food, the beauties of landscape, *the joys of companionship*, the riches of literature, or the honors of station and renown, *must preserve their health.* The effect of foul, injurious food, entering the stomach, is to derange the digestive organs and produce headache, loss of appetite, unrefreshing sleep, low spirits, feverish burnings, etc., which are the symtoms of that horrid disease, *Dyspepsia*, which assumes a thousand shapes, and points towards a miserable life and prematnre decay. PLANTATION BITTERS will prevent, overcome and counteract all of these effects. They act with unerring power, and are taken with the pleasure of a beverage.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Sewing Machines.

$25! $25!

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. NATURE'S GREAT RESTORER.

SCHEETZ'S
CELEBRATED
BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.
THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared
